*A dual-credit course awards both high school credit and college credit for a college course taken by the high school student. While the courses listed above are eligible for dual credit, the decision to award high school credit for the college course rests with the school district, provided that the decision is consistent with applicable laws, policies and administrative rules.

**Italicized* courses meet MSU-Northern's General Education Core credits. If you do not plan on attending Northern, it is not guaranteed that these classes will transfer as Gen. Ed. classes.
