## Featured Program

### BS- Agricultural Operations Technology

Our agriculture programs are unique to the state of Montana. Our coursework covers a broad spectrum of training including plant and animal science, range, animal, and crop production, and commodity marketing, while integrating technology in areas such as computers, Global Positioning Systems, and Geographic Information Systems. Graduates from this program can find employment in agricultural business, manufacturing, or agriculture repair shops. Management positions or returning to production agriculture are also options in this field.

Several students came out Wednesday to East Lawn to try their hand at this new and exciting game. If you think Paintball is too messy and capture the flag is too boring then Bongo Ball is for you. Two teams of five, in protective armor, weave through and hide behind obstacles trying to capture the opposing team's flag while dodging Nerf footballs fired by the Defender Air Canon!

## Tidbit

By Bill Lanier

KNMC 90.1 is the college radio station. In March of 1985 KNOG became KNMC and was a full 10 watts. At that time MSU-Northern was Northern Montana College, thus the letters KNMC. Prior to this time there was a commissioned vessel that had the letters KNMC and could not be used by the college. In the 1990's KNMC was primarily a repeater station for the National Public Radio from MSU-Billings KEMC). On September 4, 2001 (yes only one week before 9/11) this changed and KNMC once again became a DJ run college radio station. The first person back on the air is current station Manager, Rick Linie and he has had a Wednesday night show for the past 10 years. Rick's brother Gary has also been a DJ on KNMC and their father, Andy, was a security guard on the Northern campus for many years.

Currently KNMC is 375 watts and is located in the Student Union Building. KNMC welcomes both campus and non-campus volunteer DJ's. Call 406-265-3709 if you are interested. You can even check out KNMC on facebook!

Below is a picture of Northern Alumnus, Dave Cox, from the previous station in the tower of Cowan Hall. The picture was taken in the mid 1980's.
