From the Chancellor

In the coming months, you will be hearing a lot about the University's initiatives in external relations: fund-raising, advocacy, media relations, alumni relations. As the landscape of higher education continues to change, it is important that we reach out to our friends and supporters in an organized, comprehensive, and positive manner. To that end, we are working with a consulting team that is very knowledgeable these areas from their own experiences: President Emeritus Dr. Ron Sexton and former Director of University Relations Ken Woosley, both from Montana State University-Billings. I will keep you updated and informed on opportunities to participate in this important initiative.

MSU-Northern students met with Chancellor Dr. James Limbaugh; Dean of Student Engagement, Kim Watson; Director of Student Activities, Denise Brewer and Student Family Housing Manager, Ron Kling Thursday evening in the Student Family Housing Community Center. The focus of this meeting was to open communication with Northern Students living in our Student Family Housing and re-create the Student Family Association (SFA)-a former student family organization made up of students who live in family housing. This association will discuss and vote on issues which affect the quality of life for students residing in the family housing units. The Student Family Housing Community Center is where students may go to host community potlucks, study groups, meetings, etc. Ron Kling's office is also located in the Community Center and is open every day from 8 a.m.-10 p.m.

Office 2013

Changing those annoying ALL CAPS TAB TITLES

One thing you may notice when using Office 2013 is that the names of all the tabs on the ribbon are in all CAPS. If this "shouty" display bothers you, you can change them back to mixed case. Here's how:

1. Click on **File**,
2. then **Options**,
3. and select **Customize Ribbon**.
4. Highlight the name of tab you want to change in the right pane and
5. Use the **Rename** button to change the name. BUT rather than retyping the name, you can simply add a space at the end of the name and click **OK**.

The updates to the tabs will display when you return to the document. Unfortunately, to change them all you will have to do each and every tab, and in every application you use.
