## *From the Chancellor*

*By Dr. James Limbaugh*

Donaldson Hall is truly an icon for MSUN and for the surrounding community. Memories of the building and its integral connection to the life of the university run deep in many alumni, employees, and community members. Therefore, we are glad that we currently in Phase I of a restoration/stabilization project. I have been asked several times about the scope of the current project. Here's what we're doing:

- 1.) Cracked/displaced parapet and copings on the roof structure are being rebuilt.
- 2.) Water-damaged brick joints, concrete window ledges, etc., are being re-pointed.
- 3.) The south sidewalk is being replaced, and new site drainage to the south side is being installed.
- 4.) All downspouts and roof drains are being replaced.
- 5.) A siloxane water repellent is to be applied to all copings, ledges, and hood elements (i.e., locations in which vent pipes, etc., extend from the roof).

Phase II will be the evaluation of the facility for academic uses, and Phase III will be the actual renovation of Donaldson to support academic programming. While the culmination of these two phases will take several years and will proceed concurrently with enrollment growth, Phase I is vitally important now in that it stabilizes the exterior of the building-creating, if you will, a protective envelope-to preserve the building as we grow into it.

P.S

Trish and I want to personally invite you to join us as we contribute to Havre's city-wide beautification efforts. We hope to see you at 9 a.m. tomorrow morning; the clean-up effort usually takes about 60 to 90 minutes. Those of you who have an MSUN Pride T-shirt, please wear it. Trash bags will be provided.

### **MSU-Northern Hosts MPSEOC College Fair**

MSU-Northern hosted the first College fair on the Montana Post-Secondary Educational Opportunities Council (MPSEOC) three-week tour. Sixty-four colleges were on hand to talk to over 400 students from 11 high schools from across the Hi-Line. MSU-Northern recruiters will be on the road for the next three weeks visiting with high school students around Montana with the Eastern and Central Montana MPSEOC tours.

### **MSU-Northern Remembers 9-11**

Many MSU-Northern faculty, staff, and students joined the millions of people from across the country who gathered together for a few brief words and a moment of silence to remember those lost in the September 11 attacks that shook the nation 12 years ago.

### **Facebook Fight Song Challenge**

The University Relations office wants to challenge your office, class, club, sports team, business, or family to learn the new MSU-Northern Fight Song! The Admissions staff has already learned the music and lyrics and showed off their newfound school spirit in a video posted on our MSU-Northern's Facebook page: <https://www.facebook.com/photo.php?v=10151802516134178>

Jim Potter is available to come teach the fight song to your group, video your best rendition, and post it on Facebook for our MSU-Northern community to admire. If you wish to create your own Fight Song video for us to publish on our Facebook page, simply send it to [potterj@msun.edu](mailto:potterj@msun.edu).

## Chancellor's Lecture Series Off to a Great Start

On Tuesday night Hipolito Rafael Chacon, Professor of Art History, gave the first presentation of the 2013-2014 Chancellor's Lecture Series. Chacón's lecture was on The Art of Glacier National Park. It focused on the early years of tourism in the West and the importance of art as a lure to tourism. From its creation over a hundred years ago, Glacier National Park has been a mecca for visual artists who have found much to appreciate in its natural and scenic beauty. Chacón presented a rich visual history of the park, especially the role played by the Hill family and the Great Northern Railway in developing the park's infrastructure as well as promoting this national treasure.

## Blood Drive - Huge Success

The Red Cross Blood Drive that was located in the MSU-Northern Ballroom on Wednesday was a huge success. Their goal was to collect 67 pints of blood and it is safe to say they far exceeded their goal. They had 96 people willing to donate and 80 who were able to give. That is the most MSU-Northern has ever done! The Red Cross staff said they had so many donors; MSU-Northern became one of their biggest events. There were 15 walk-ons that they were unable to accommodate in their very full schedule. Special thanks for everyone who helped make this blood drive so successful. The next blood drive will be November 6th.

## Tutoring Without Walls

These students (L to R) Steven Turville, Jack Hollowell, Brittani Bergtoll and Michaela Howe-Cobb, are the student tutors who are working in the New Learning Success Center. Even though their walls haven't arrived tutors are still available to help students succeed. During this start-up time the Learning Success Center has adopted the motto "tutoring without walls." The Learning Success Center is located on the top floor of the Vande Bogart Library. Tutoring sessions for math and writing are available in the morning and evening when the library is open. Whether you need a little help with homework or a full session to work out particular issues in math or writing, tutors are ready to assist you!

### @ Your Library

By Vicki Gist

Tuesday, September 17<sup>th</sup> is Constitution Day! On Sept. 17, 1787 the United States Constitution was signed at Independence Hall in Philadelphia. Thomas Jefferson, George Washington, Benjamin Franklin and 36 additional delegates to the Constitutional Convention met one last time to put their signatures at the bottom of a document that began with the following words-"We the people of the United States, in order to form a more perfect union ...". To learn more about this important document, come in next week to visit the Constitution Day display at the Library. For more information about the Constitution and Constitution Day, you can also visit [www.constitutioncenter.org](http://www.constitutioncenter.org) or [www.constitutionday.com](http://www.constitutionday.com).

Do you like to read the Chronicle of Higher Education, one of the major newspapers in the higher education field? The Library has an electronic subscription to the Chronicle. You can read it on campus at <http://chronicle.com>. #### Excel 2013

#### Flash Fill Magic

The new **Flash Fill** tool in Excel 2013 makes data sheets much easier to manipulate. Flash Fill detects patterns, extracts and then enters data that follows a recognizable pattern. For example, do you want to extract first names from a column of full names? Do this:

1. In a blank column adjacent to the one that contains full names, type the first name of the first person.
2. On **Home** tab in the **Editing** section, select **Fill** then **Flash Fill**. T

The first names of everyone in the list will be entered into that that column immediately. You can use the same process to extract last names, join first and last names, extract months, days or years from dates... even extract values from cells. No formula to execute - Flash Fill does the work for you!
