

Proposal to use the Self-Reporting Form for all General Education Classes

The general education committee would like to request that the new Self-Reporting Form located on the Better Banner System and linked to the ia.msun.edu website be implemented for general education reporting. This self-reporting tool will be used to consistently assess general education courses. The results from this assessment will be included in the Student Learning Assessment Plan for general education. All instructors of general education courses taught each semester would be responsible for inputting their information into the system. Any courses not reported on would be audited by the general education committee.

Course Outcome Report

M 121 College Algebra

Term: FALL 2011-2012 Section: 901
Instructor: CHARLES POLLINGTON

EXAMPLE

Finalize Report.

Outcomes

GENED II 4. Discipline of mathematics 100% coverage

II 4. Demonstrate understanding of the discipline of mathematics through multiple means of oral, written and visual assessment

Accomplished: %

Note:

GENED II 3. Beyond intermediate algebra 100% coverage

II 3. Perform mathematical applications beyond intermediate algebra

Accomplished: %

Note:

GENED II 2. Mathematical models or statistical designs 100% coverage

II 2. Describe or demonstrate how mathematical models or statistical designs are used to obtain knowledge in several disciplines

Accomplished: %

Note:

GENED II 1. Solve problems 100% coverage

II 1. Solve problems through mathematical reasoning using calculators and computers

Accomplished: %
