THE VALUE OF YOUR BACHELOR OF APPLIED SCIENCE DEGREE

The Bachelor of Applied Science (B.A.S.) degree from Montana State University-Northern is designed for students who have already earned an Associate of Applied Science (AAS) degree from a regionally accredited institution, and would like to use that degree as a first step toward earning a baccalaureate degree.

Take your Associate of Applied Science degree up to the next level with a Bachelor of Applied Science degree from MSU-N. Build on courses and the specialized study already completed in your AAS degree. Create more job opportunity or career development for yourself by completing a four-year college degree.

WANT TO GRADUATE ON TIME? SAVE MONEY? GET BETTER GRADES?

You're going to need 15. That's the number of credits you need to take each semester to graduate on time. Sure, you can take less and still receive some scholarships and funding. But unless you take 15 credits a semester (or 30 a year), you're looking at an extra year or more in order to graduate. Know the courses you need to graduate, and meet with your advisor to map out a plan to earn your degree on time.
